

WHY WE NEED TO END RABIES NOW

Canine rabies is one of the world's oldest diseases, eliminated in countries like the US and the UK, but still a daily threat to millions around the world.

Every **09** minutes,
a person dies from
RABIES.

100%
of human cases are
preventable.

Domestic dogs
cause over
99%
of human rabies
deaths.

Vaccinating
70%
of dogs in at-risk areas
can eliminate canine
rabies.

Nearly
85%
of the world is at
risk of contracting
canine rabies.

95%
of human rabies deaths
occur in Africa and Asia.

Mass canine
vaccination
programmes
reduced rabies by
90%
in Latin America.

Canine rabies kills more than

59,000
people every year.

2.9 million
lives are saved annually due to
preventative measures.

**It doesn't have
to be this way. Together, we can
end rabies for good.**
